

Launch of SHARE (Seniors Helping the Achievement of Rurals in Education) in Sai Krushna Vidya Mandir School:

SHARE is a novel initiative of SKVM school in partnership with KSSEM College of engineering and management. About 50 student beneficiaries of class 9 and class 10 of SKVM School have been divided into 6 groups.

Each group typically has 8 students needing personal attention and assessment if feasible.

From the KSSEM, College students are divided into six groups (we have called them the Student-Faculty). Each Faculty group has 2 or may be 3 members.

Second session has been scheduled on this Saturday, these student-faculties from KSSEM come and enable conceptual learning and doubt clearance for SKVM students.

Topics: Surface Area and Volume and Co-Ordinate Geometry.

This ensures personal attention and close to 1-1 tutoring on doubts.

We are hopeful that this will be excellent Programme enabling senior College students to help junior school students to achieve success.
