DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Report on

Black and White Day Celebration

Department of Electronics and Communication Engineering celebrated Black and White Day on 21st June 2022 with respect to AAROHANA Cultural Fest.

On the occasion of this day, Head of Department, all staff members along with non-teaching staff were in Black and White colored attire.

Color Black represents Strength, Sophistication, Power, and Elegancy. Color White represents Reverence, purity, simplicity, cleanliness and perfection. A black-and-white subject or situation is one in which it is easy to understand what is right and wrong. Black and white thinking is a tendency to think in extremes. While it's normal from time to time, developing a pattern of dichotomous thinking can interfere with your health and career.
