## REPORT ON

# CELEBRATING WORLD ENVIRONMENTAL DAY

**Event name:** Celebrating world environmental day.

**Date of event:** 5<sup>th</sup> June, 2024

**Venue:** Near Basket ball court, KSSEM

**Number of participants:** 30

**Targeted Audience:** IEEE Students.

The department of Electronics and Communication Engineering, KSSEM, in association with IEEE KSSEM Student branch organized a Event on, “Celebration of World’s Environmental Day” 5<sup>th</sup> June, 2024

In presence of honorable principal **Dr.Rama Narasimha** and Hod's of all departments, **Dr. Renuka V Tali**, IEEE Branch Councilor for KSSEM Student Branch and other faculty members of the department graced the event with their presence. The event was attended by third and fourth year students. IEEE student member delivered welcome speech and also introduced the Guests to the gathering.

### **Discussion:**

World Environment Day, which is celebrated annually on June 5th, serves as a poignant reminder of the critical state of our planet and the urgent need for collective action. The Day was established by the United National General Assembly in 1973, and it has been celebrated every year since. This year’s theme is finding a solution to plastic pollution and is hosted in West Africa.

With over 400 million tons of plastic is produced every year worldwide and only half of which is designed to be used only once, World Environment Day will remind all of us that there needs to be a solution to climate change before it continues to harm human health and biodiversity and pollutes every ecosystem.

**DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING**

Climate change, undoubtedly one of the most pressing challenges of our time, is closely linked to World Environment Day. “Climate change refers to long-term shifts in temperatures and weather patterns, which can be natural, due to changes in the sun’s activity, or large volcanic eruptions”. The day serves as a rallying call to combat climate change by raising awareness, promoting sustainable solutions, and encouraging proactive measures at all levels. The urgency to address climate change arises from its far-reaching impacts. Plastic pollution poses a significant threat to our ecosystems, wildlife, and human health.

IEEE recognizes this global crisis and is committed to helping combat and mitigate the effects of climate change through pragmatic and accessible technical solutions and providing engineers and technologists with a neutral space for discussion and action” (IEEE Climate Change). The global community of engineers and technologists within IEEE utilizes their expertise and knowledge to contribute to the development of solutions for numerous pressing climate change challenges.

### **Conclusion:**

The world environment day is celebrated every year on 5th June to raise global awareness to take positive environmental action to protect nature and the planet earth. It is a day that reminds everyone on the planet to get involved in environment friendly activities. People come together to pledge towards building a greener planet. Keeping this aim in view, KSSEM College celebrated World Environment Day on 5th of June 2024.
