

### Feedback on Industrial Visit

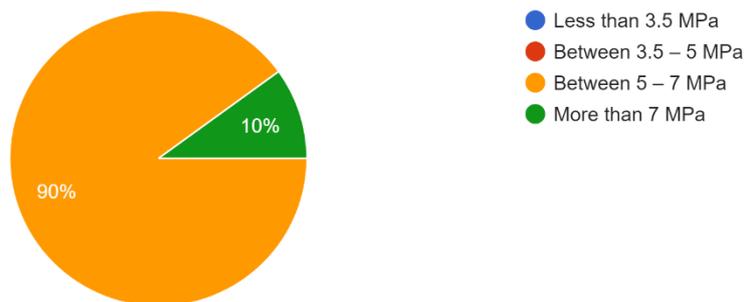

Have you understood the mix proportion used in manufacturing masonry blocks?

10 responses

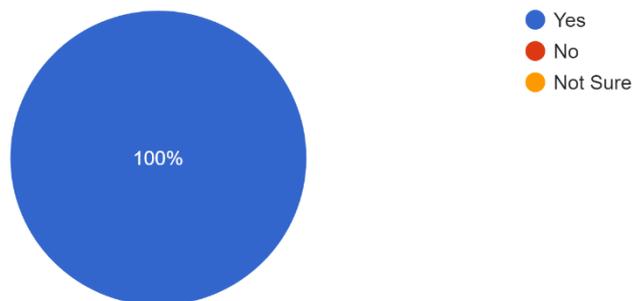

What was the estimated compressive strength of the masonry blocks observed during the visit?

10 responses

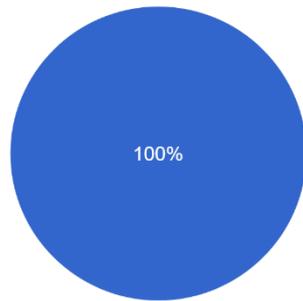

Is the compressive strength observed comparable to the IS standard code requirements?

10 responses

Did the visit help you understand how the cost of a block is calculated (materials, labor, etc.)?

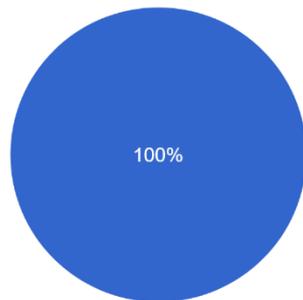

10 responses

- Yes
- Partially
- No

Would you recommend this visit for future students?

10 responses

- yes
- No
