REPORT ON

NATIONAL SERVICE SCHEME ACTIVITY (21NS83)

Title: PLANTATION AND ADOPTION OF PLANTS

Submitted in partial fulfillment of the requirements for the award of the degree of

BACHELOR OF ENGINEERING

IN

ELECTRONICS AND COMMUNICATION ENGINEERING

Submitted by

Ms. Devika T S

(1KG21EC021)

Under the Guidance of

Mr. Kishore M

Associate Professor

Dept. of ECE

K. S. S. E. M

Mr. Manoharkumar K N

Assistant Professor &

NSS Programme Officer

Dept. of Applied Science

K. S. S. E. M

KSSEM
K. S. SCHOOL OF ENGINEERING AND MANAGEMENT

Department of Electronics and Communication Engineering

K. S. SCHOOL OF ENGINEERING AND MANAGEMENT

#15, Mallasandra, off. Kanakapura Road, Bengaluru – 560109

2023-2024

CHAPTER 3

ACTIVITY EXECUTION

3.1 Completed Work:

The initial step was to educate the students on the importance of plants in sustaining a healthy environment. This awareness session covered topics such as how plants contribute to cleaner air, preserve soil health, prevent soil erosion, and influence climate conditions. It also emphasized the role of plants in addressing climate change and maintaining ecological balance.

Fig 3.1 Plantation Awareness program at Government school

The activity aimed to enhance the greenery within the school premises, promote environmental awareness among students, and foster a sense of responsibility toward nature. On the day of the activity, NSS volunteers, along with students, planted saplings, including jasmine, neem, and other flowering plants. Volunteers also conducted an awareness session on the importance of plant adaptation and post-plantation care.

The enthusiastic participation of the students and staff added vibrancy to the event, as they actively engaged in planting and learning about environmental sustainability. This initiative not only strengthened ties between the NSS team and the school but also served as an inspiration for the community to adopt sustainable practices.

The next phase of the plan was focused on digging appropriate pits, planting the saplings, and securely covering them with soil, followed by watering to ensure proper growth.
