Certification Details:**RHCSA Red hat Certified System Administrator.****RHCE Red hat Certified Engineer.****Project Details:****IT Analyst – Tata Consultancy Services, Bangalore****Project: Time Warner**

Managed server migrations, custom builds, and performance tuning across global data centers. Specialized in RHEL systems, patching, LVM, and network configurations. Ensured system reliability through proactive monitoring, incident resolution, and disaster recovery operations.

As a Test Engineer, I was responsible for designing and executing comprehensive test plans to ensure the reliability and performance of healthcare data systems. My role involves validating data integrity across multiple platforms, automating regression test suites, and collaborating closely with development and business teams to identify and resolve issues. I leverage tools like Selenium, Postman, and JIRA to manage test cases, track defects, and ensure timely delivery of high-quality software solutions aligned with client expectations
