Report

The Department of Civil Engineering, K S School of Engineering and Management had organized a Two Day workshop at Ashirvad Plumbing School, Bengaluru on 20th and 21st of January 2023 for third semester students. 15 students along with 2 faculty attended the visit.

Ashirvad Plumbing School is the first of its kind plumbing school in India with state of the art technology that is fully equipped with technologically enabled infrastructure, 18 demo labs, sewage and water treatment plants, solar hot water systems, recirculation systems, pumps and high-pressure systems. The main focus of the school is to skill youth with the best plumbing practices, occupational health and safety, and water and energy conservation.

Objectives of the Workshop:

- To make the students aware of the basic aspects of plumbing and plumbing fixtures, different types of pipes, fasteners, joints and connections used in plumbing.
- To make the students aware of the modern tools and techniques used in plumbing practices.

Outcomes of the Visit:

- Students understood about plumbing and the fundamental aspects of plumbing.
- They were exposed to the different types of plumbing fixtures and connections.
- They learned about the distribution of water supply and sewerage systems.
- They learned about the tools and techniques used in plumbing practices.
