**LETTER OF RECOMMENDATION**

It is with sincere enthusiasm that I am writing this letter of recommendation for **Mr. DINESH KRISHNAN YM**, who is aspiring to pursue Postgraduate studies in your esteemed university. I have known Dinesh since his enrolment to Civil Engineering department in 2017. During his Undergraduate studies, I was his professor for Elements for of Civil Engineering, Analysis of Determinate and Indeterminate structures, Quantity survey and Contracts Management and I even mentored him in Building Material Testing lab. I appreciated his attention during the lectures and dedication in his academics and felt that he would be capable of pursuing his higher educations.

Dinesh had been a passionate student during his Bachelor's Degree and had a nature to assimilate, analyze subject matter and did not hesitate to question any ambiguous concepts. His knowledge of the subjects which I have thought have been found to be good and I would be extremely happy if he builds on his existing knowledge. Other than academics, he had also displayed ability to work with other students. He had worked with a team to prepare models of various structures for annual engineering exhibition and team had done a wonderful job.

As a professor of Dinesh, I had opportunities to assess his interest in subjects which were being handled by other faculties and I must say that Dinesh had shown good interest in other subjects too. While guiding on the aforementioned subject, I have recognized that Dinesh has acuity of his goals. He is a fast learner, clarifies doubts and implements the best out of that information.

I am pleased that Dinesh is planning to enroll in a master's degree this fall. I have no doubt that he has the practical skills, stimulus and determination to successfully complete a master's degree in a timely fashion. I highly recommend him for your graduate program at your distinguished university.

Sincerely, *Sushma M* 4/02/2022

Mrs. Sushma M

Assistant Professor

Department of Civil Engineering

K. S. SCHOOL OF ENGINEERING AND MANAGEMENT
