LETTER OF RECOMMENDATION

It is with pride and gratification that I am recommending **Mr. DINESH KRISHNAN Y M** for admittance in the post graduate program in your esteemed university. I have known him for four years while he was my student in KS SCHOOL OF ENGINEERING AND MANAGEMENT, Bangalore. I have come to know him quite well, having interacted with him in consecutive semesters and it is with happiness that I note that he has chosen to continue his studies.

Dinesh is a careful and creative thinker with an eye for details. He has worked closely under my supervision and has done exceedingly well in showcasing his talents and interest towards the subjects. He has shown excellent ability in problem solving and has impressed me with his commitment to learn and think innovatively. His strong points also include exceptional communication skills backed up with excellent team work.

I have handled classes for him on subjects like Strength of Materials, Quantity Survey and Contract Management. I have also guided him in the lab works of Hydraulics Machine. He proved to be an excellent student with the inquisitive mind. I was also very impressed with his discipline and punctuality. I have also guided his final year project "Design of Bullet Train Tracks for Mumbai-Ahmedabad stretch". Personally, I observed him he had gained experience in numerous simple concepts that are highly valuable for the future generation.

Considering his keen interest in pursuing higher studies and knowing his calibres these years. I am confident of his ability to succeed as a graduate student and I strongly believe that he will scale the highest pinnacle in this field. Hence, I recommend him in the strongest intent for admission of post graduate program at your university. I wish him grand success in all his upcoming endeavours.

Yours sincerely,

Mrs. Amrutha D

Assistant Professor

Department of Civil Engineering

K. S. SCHOOL OF ENGINEERING AND MANAGEMENT
