**“Report on AICTE Activity Program”**

<b>AICTE Activities</b>	Campaign of helping school students to achieve good results and conducted games.	24-11-2022 to 09-12-2022
	Cleaning school premises and ground flooring	10-12-2022 to 20-12-2022
	Plantation	21-02-2023 to 23-02-2023

The objectives of AICTE student activity is to expose students to real-time life challenges, to provide the opportunity to gather data, analyses data, propose solutions and implement solutions. Also, it paves the way for personal development and creative engineers who are proud volunteers with a sense of achievement and ready to take up projects having a social impact and creating digital awareness. Besides, it helps the students to strengthen their soft skills, leadership qualities and team spirit. Moreover, these activities inculcate entrepreneurial mindset and societal commitment.

Following are the various activities done, to enable AICTE activity points.

1. Campaign of helping school students to achieve good results and conducted games.
2. Cleaning school premises and ground flooring.
3. Food Donation in Ashrama.

**Title: Campaign of helping school to achieve good results and conducted games.**

**Date: 24-11-2022 to 09-12-2022**

**Duration: 16 Days**

**Brief about the event:**

Helping school students to achieve good results: This initiative involves providing additional support to students in schools to help them perform well academically. This support may take the form of tutoring, mentoring, or other forms of academic assistance. By helping students to achieve good results, we can improve their chances of success in life and help them to achieve their full potential.

Conducted Drawing activity and games: Drawing is a great activity for primary students as it helps develop their fine motor skills, creativity, imagination, and self-expression. Here are some tips for incorporating drawing activities in primary classrooms.

Encourage students to engage in physical activities by organizing outdoor games like kabbadi and kho-kho. These activities can promote teamwork and exercise while providing an opportunity to have fun outdoors.

Music and movement: Incorporating music and movement activities can help develop students' gross motor skills and coordination. You can lead simple dance routines, sing-alongs, or encourage students to create their own rhythms and beats.

**Outcome of the activity:**

Teaching is a constantly evolving process, and it's important to be flexible and open to new ideas and approaches. With patience, dedication, and a focus on student learning, you can make a positive impact on your students and help them succeed in their education.

Drawing is an excellent activity for primary students as it allows them to express their creativity, improve their fine motor skills, and develop their imagination.

Encourage students to express their creativity through art projects such as painting, drawing, or sculpting. These activities can be fun and engaging, while also promoting self-expression and imagination.

**Take away from the activity:**

Leadership qualities, Team work, engineering creativity, team spirit, voluntariness and social skills.

**Title: Cleaning School Premises and Ground Flooring****Date: 10-12-2022 to 20-12-2022****Duration: 11 Days****Brief about the event:**

Cleaning school premises is an important task that helps to maintain a safe and healthy environment for students, teachers, and staff. Here are some steps that can be followed to clean school premises effectively.

Make sure that all the trash is properly disposed of in the designated trash cans or dumpsters. Begin by removing any trash or clutter from the area. Sweep or vacuum the floors, dust the surfaces, and clean the windows.

There are several options for flooring materials such as asphalt, concrete, rubber, and synthetic turf. Consider the budget, maintenance requirements, and the intended use of the area when choosing the flooring material.

Before laying the flooring material, prepare the surface by removing any grass, weeds, or debris. Level the surface and ensure that it is free of any rocks or other obstacles.

**Outcome of the activity:**

The activity of cleaning school premises can have several positive outcomes for the school community, including improved health and safety, a better learning environment, increased pride in the school, reduced absenteeism, and lower maintenance costs.

The activity of cleaning school premises can have several positive outcomes for the school community, including improved health and safety, a better learning environment, increased pride in the school, reduced absenteeism, and lower maintenance costs.

Flooring the school ground can provide a safe and durable surface for students to play and engage in outdoor activities. Here are some steps that can be followed to floor a school ground.

**Take away from the activity:**

Team work, engineering creativity, team spirit, voluntariness and social skills.

**Title: Plantation****Date: 21-05-2022 to 23-05-2022****Duration: 3 Days****Brief about the event:**

Plantation refers to the cultivation of large-scale crops or trees on a specific piece of land. Plantations are typically managed for commercial purposes, such as producing agricultural crops, timber, or other resources.

**Agricultural Plantations:** These involve the cultivation of crops like sugarcane, cotton, palm oil, coffee, cocoa, rubber, or bananas, among others, for commercial purposes.

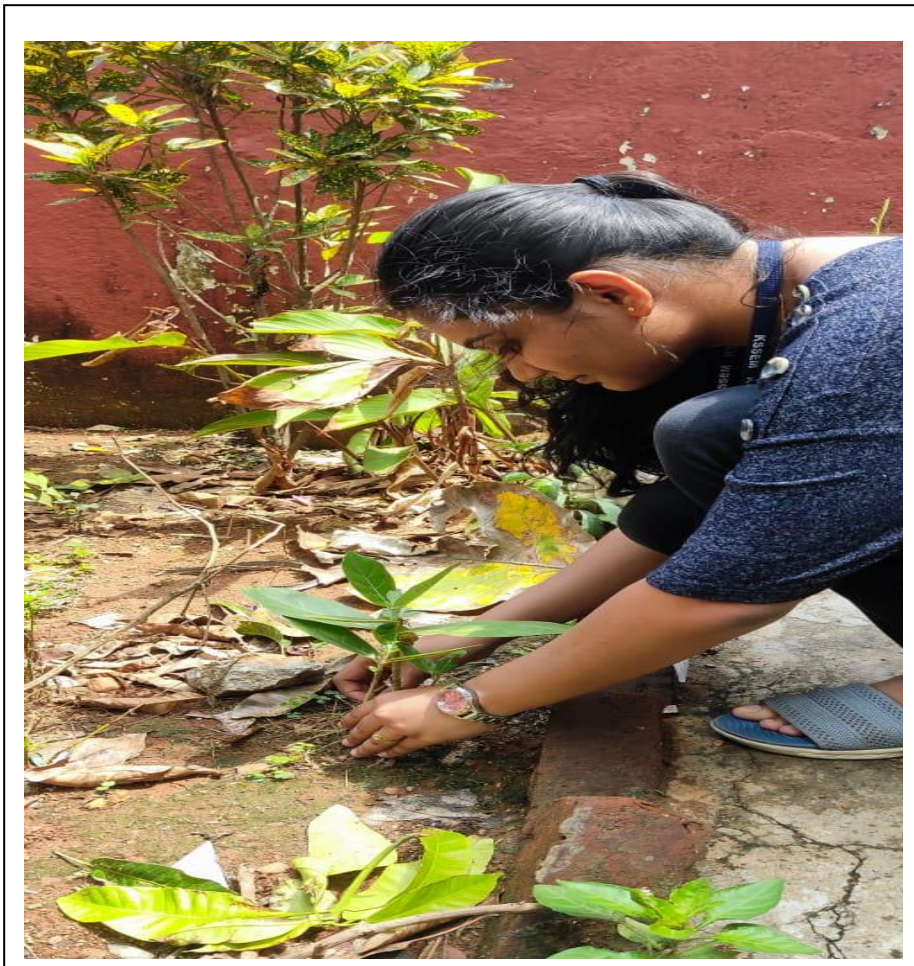

**Timber Plantations:** These involve the planting and management of trees for the production of timber, pulpwood, or other wood products.

**Fruit Plantations:** These focus on cultivating fruit-bearing trees such as citrus fruits, apples, mangoes, or grapes for commercial fruit production.

**Outcome of the activity:**

The outcomes of plantation activities can vary depending on the specific type of plantation and its objectives. Here are some common outcomes associated with plantation activities:

**Resource Production:** Plantations are primarily established to produce crops or resources on a large scale. The outcome can be the successful growth and harvest of the intended crop or tree. For example, in agricultural plantations, the outcome could be the production of significant quantities of crops like sugarcane, palm oil, or coffee. In timber plantations, the outcome is the cultivation of trees for timber production.
