TO WHOMSOEVER IT MAY CONCERN

SUB: Internship completion certificate - Mr. SHRAVAN C (IKG15CV049)

This is to certify, Mr. **SHRAVAN C**, bearing USN – **1KG15CV049**, a Civil Engineering Student from, **K S School of Engineering and Management**, Bangalore, was with us, as an Intern, undergoing training, in our Company – **COMPENDIOUS ENGINEERING SOLUTIONS PVT LTD**, 939, 2nd Floor, 28th Main Road, 9th Block, Jayanagar, Bangalore 560069, during the period **13th July 2018 to 13th August 2018**.

Mr. **SHRAVAN C**, as an Intern, was involved in the design and development of scheme for shoring and retention systems for Deep excavations, on a number of projects spread across the country. He was also a part of the team, working on Conceptualization, Architectural and Structural – Design Development of a Skywalk for the Civic Body in the city of Bangalore. It also included a number of visits to the site, to supervise the execution of the scheme.

Mr. **SHRAVAN C**, during his Internship period, impressed us, by his sincerity and high sense of commitment to learning and work. He has shown a sustained interest both in analytical and field work. Mr. **SHRAVAN C**, has successfully met the objectives that were set at the beginning of the Internship.

His character is quite satisfactory. With his good temperament and tenacity towards learning and implementing what he has learnt, we are sure, he will be able to acquit himself creditably in any post of responsibility. He is a good team player, with a penchant for motivating others also to excel in their domain. He deserves encouragement. We recommend his candidature happily.

On behalf of **COMPENDIOUS ENGINEERING SOLUTIONS PVT LTD.**, we wish Mr. **SHRAVAN C**, all the very best in all his future endeavours, and would like to hear more of his accomplishments in the years to come.

To,
EECH

Sub: Seeking permission to visit Thorekadanahalli water purification Plant.

Ref: Letter of K.S. School of Engineering and Management,
dated: 29/09/2018.

--*

With respect to the above subject, Professor & Head Dept. K.S School of Engineering and management, #15, Near Vajarahalli, Mallasandra, Off Kanakapura Road, Bengaluru-560109, vide their letter cited under reference has requested permission to visit the Water Treatment Plant at Thorekadanahalli. As part of curriculum program, the students intend to have educational trip on 09/10/2018 there are 58 members, (54 students 04 faculties).who would like to visit Thorekadnahalli.

In this regard it may be considered to permit the students of K.S School of Engineering and management, #15, Near Vajarahalli, Mallasandra, Off Kanakapura Road, Bengaluru-560109, under the following conditions.

1. It is mandatory that, students should be above the age of 16 and the team should be accompanied by their Faculty.
2. One Assistant Engineer/Assistant Executive Engineer of the Board will be accompanying the team throughout the visit.
3. Selfie/Photography is prohibited in the Treatment Plant and BWSSB premises. Mobile phones/camera shall not be carried inside the BWSSB premises.
4. No recreation/cultural activities shall be entertained in the vicinity.
5. Consumption of food and vehicles are not allowed inside BWSSB premises.
6. Private Vehicles are not allowed inside BWSSB premises.
7. Faculty /Representatives of Institution will be held responsible for the safety of the students.

8. Visitors are prohibited to enter the restricted area in the Treatment Plant. If violated, Faculty / Representation of institute will be held responsible for any kind of loss/damages to any individual and / or BWSSB property.
9. Entry is restricted to the Water Treatment Plant only.
10. The Prescribed fee for the visitors shall be paid to BWSSB before the visit.

In addition to the above utmost care shall be taken to avoid any untoward incidents/accidents. One Assistant Executive Engineer shall accompany the team throughout the visit. Any untoward incident/accident occurs during the visit, the Faculty/Representatives of the Institution will be solely responsible. The team of visitors shall comprise those mentioned in the enclosed list and their identities shall be thoroughly verified and ensure that only these members are allowed inside. The Head of the Team shall give an undertaking for complying to the conditions.

EECH may permit the students K.S School of Engineering and management, #15, Near Vajarahalli, Mallasandra, Off Kanakapura Road, Bengaluru-560109, to visit the Water Treatment Plant at Thorekadanahalli on 09/10/2018, on acceptance of all the above conditions & Faculty/Representatives of the Institution shall be entirely responsible for the visit.

Ballyhara-560002.

About the water treatment plant:

The water supply for Bangalore is extracted mainly from Shiva Anicut Cauvery River. Here the water is brought from 95 km away from Cauvery Basin or 140 km away Kabini River from which the water is taken to Thoraikadanahalli in Mandya district and is then pumped 85km through incredibly complicated process to reach Bangalore. The water is pumped upwards 1500 feet upwards from T K Halli to Bangalore which is the Asia's biggest pumping exercise. From T K Halli the water is first pumped to Harohalli then to Tataguni and finally to Bangalore. The water treatment plant treats 550 MLD water per day and uses 200 KVH power to operate and has dedicated engineers, technicians and other staffs to operate. It has also adopted a modern technique called DAF (Dissolved air floatation).

DIFFERENT SECTIONS OF WATER TREATMENT PLANT

The treatment of water is done in different stages including aeration, chlorination, flocculation or DAF and filtration.

Aeration (Cascade Aerator)

This is the first stage of water filtration where the water is made to fall from cascades which expose water to oxygen which helps in maintaining healthy amount of oxygen in the water and also to some extent remove odor.

Chlorination

Chlorination is done in massive amount which is sent in gaseous form through pipes. The chlorine used is almost 300kg per day, which would ensure no harmful organisms are left in the water.

Flocculation

In flocculation chamber the water is subjected to alum dosing whereby aluminum phosphate is mixed to ensure right turbidity (clarity) of water. The mixing of alum coagulates the turbidity causing element which can be removed by filter beds. If the size of coagulant exceeds 10mm then DAF is used.

DAF (Dissolved Air Floatation)

This process removes suspended matters by dissolving air in the water under pressure and then releasing the air at atmospheric pressure in a floatation tank basin. The released air forms tiny bubbles which adhere to the suspended matter causing the suspended matter to float to the surface of the water where it may be removed by skimming device.

Filtration (Sand filter)

Filtration process follows wherein sand is used as filters. The water is passed in tanks containing sand filter bed from which the water flows through sand filter by gravity and the impurities are retained in sand and finally the water is fit for supply. Backwash of sand filters: This is periodically done to clean the sand filters to make it fit for further water filtration. The water is pumped back from the bottom of the sand bed which floats the impurities away.

OBJECTIVES OF THE VISIT:

1. The students should be able to gain the knowledge about the impurities that are present in water.
2. The students should be able to know the physical, chemical and bacteriological characteristics of water.
3. The students should be able to know about the different treatment units adopted in water treatment plant.
4. The students should be able to know about the technology adoption for better water treatment.

Report

The Department of Civil Engineering had organized an Industrial visit to **BWSSB 550 MLD Water Purification Plant at T K Halli, Mandya** on 9th October 2018. 51 students of 5th semester Civil Engineering along with 3 faculties has visited the treatment plant.

The plant in charge briefed us on plants history and highlighted that it is Asia's biggest water purification plant with 5 stages of purification and pumping along with conventional and latest technology as its unique and exclusive mode. It is spread across 25 acres with just 52 employees to handle the entire plant. He also explained the whole process of operation at different levels and the automation.

The visit provided an opportunity to get an exposure of industry situations and practical experience which facilitated them to enhance their skills and industry understanding. Overall, the visit was very fruitful.

OUTCOMES OF THE VISIT:

1. The students are able to gain the knowledge about the impurities that are present in water.
2. The students are able to know the physical, chemical and bacteriological characteristics of water.
3. The students are able to know about the different treatment units adopted in water treatment plant.
4. The students are able to know about the technology adoption for better water treatment.

Date – 23rd January 2019

TO WHOM IT MAY CONCERN

This is to certify that **Ms. Shravani Immidi**, final year student of **K. S. School of Engineering & Management, Electronics & Communication Engineering**, has undergone internship in our organization from **06.01.2019 to 31.01.2019**.

During this period, Ms. Shravani has participated actively with the sales & project teams in various applications of Building Management Systems for HVAC controls. Her responsibilities during this time included:

- Project Tendering relating to management of MEP and BMS drawings & specifications for the study and understanding of client requirements, plot layouts and project design.
- Estimation procedures for enquiries, inclusive of Quantity Take-off, Equipment Schedules (BOQ Preparation), Data Point Schedules, Controller Assigning, Device Count (Sensors, Transmitters, etc.).
- Engineering of BMS systems, inclusive of development of Control Schematics and Network Riser Diagrams.
- Document control and handling, inclusive of proofreading, Pre-Qualification and Submittal printing and filing.

Ms. Shravani's performance has been excellent throughout the internship period. She also takes ownership in completing the assigned task within the allotted time.

Azbil Corporation wishes Ms. Shravani all success in her career and future endeavors.

Mr. Prateek Garg
Sr. Technical Sales Engineer
AZBIL Corporation-Middle East Branch
